

Avery Dennison® XTRM PRO Window Film Portfolio

A new class of durable and sustainable solar control films

Avery Dennison XTRM PRO window films are a new generation of durable, exterior solar control films. Our XTRM PRO films have a nationwide warranty and easy application handling with no certification required.

The new unique anti-fading protection layer and exceptional UV-durable coating makes these films thrive in the most extreme, harsh, outdoor conditions.

XTRM PRO window films deliver outstanding levels of heat rejection and UV block that reduce building cooling output, create a more comfortable environment for tenants, and reduce carbon emissions.

XTRM PRO films are compatible with many types of glazing.

Horizontal & Sloped Glazing

SkyLite 20 XTRM PRO

SkyLite 20 XTRM PRO

Our Skylight films are specifically engineered to withstand demanding horizontal and sloped exterior roof applications. SkyLite 20 XTRM PRO has a neutral appearance with high optical quality. SkyLite 20 XTRM PRO has an adhesive system for exterior application on glass, while SkyLite 20 XTRM PRO Poly was developed for exterior adhesion to rigid plastics such as Polycarbonate. The advanced design enables application without the need to edge seal*.

R Silver 20 XTRM PRO

Our R Silver 20 XTRM PRO film for vertical glazing application delivers the exceptional heat rejection that improve a building's green profile with the limited lifetime durability you'd expect from an interior film. Tested under extreme lab weathering conditions and demonstrated in the field, R Silver 20 XTRM PRO film have proven endurance and performance, year after year.

Vertical Glazing

R Silver 20 XTRM PRO

DR Grey 10 / 20 / 35 XTRM PRO

Our DR Grey XTRM PRO dual reflective films, based on metallized polymeric combined with nanotechnology, delivers excellent heat rejection performance. The film's dual reflective structure is a combination of a reflective outer layer for privacy and a neutral inner layer with nanotechnology that maintains views outside.

Features and Benefits

- Outstanding solar performance: exceptional heat rejection, providing a comfortable environment for building tenants and lower carbon emissions
- Aesthetic upgrade for building's design renovation
- Suitable for installation on many glazing systems
- Nationwide warranty (no state exclusions)
- No certification required: easy application handling and more robust construction
- Exceptional Durability: unique anti-fading protection layer and UV-durable coating, makes these films thrive in the most extreme, harsh, outdoor conditions
- Elite UV protection: >99%

Correct installation procedures are vital for maximum longevity. We offer complete, professional training for certification of window film experts qualified to install XTRM exterior films. Vertical XTRM PRO films require edge sealing

* Speak with your Avery Dennison window film sales representative for complete edge-sealing and warranty details.

** Performance results are calculated on 1/8" glass using NFRC methodology and LBNL Window 5.2 software, and are subject to variations in process conditions within industry standards. Performance calculations should only be used for estimating purposes.
